FREE SCREENINGS

What: Free breast cancer screenings

Why: To battle breast cancer in our community

Who: Bluffton Regional Medical Center and its physician partners

Where: Medical Arts Building, 1026 S. Main St., Bluffton

When: Monday, October 24, noon - 4 p.m. and Tuesday, October 25, 8 a.m. - noon

Other information: Many women are afraid of what a mammogram or breast cancer screening will reveal and how their lives might change. It's this fear that keeps women from doing the one thing most effective in the fight against breast cancer: detecting it early.

Finding breast cancer leads to fighting it and that can mean the difference between being a survivor or becoming a statistic. Fearless & Fabulous is a comprehensive program that reminds women how fabulous their lives can be when they stop letting fear control them and when they embrace the power of early detection. To register for the screening, call (260) 919-3045.

BE A "LONGER LIVER"

GUARD YOUR LIVER AND IT WILL SERVE YOU WELL

Though they don't get a lot of attention in the press, liver diseases are the fourth leading cause of death in Americans between the ages of 15 and 65. The diseases can strike anyone regardless of age, sex, race, or economic status.

The liver is the largest organ in the body, weighing 3 to 4 pounds. It takes blood from the stomach and intestines and cleanses it by freeing the blood of waste matter and poisons. Its work is basic to health and longevity.

The American Liver foundation says these are some things you can do to protect your liver.

- Avoid taking too many medications or mixing medicines without the advice of a doctor. Street drugs can scar the liver permanently.

- Don't have more than a couple of alcoholic beverages per day.

- Be careful what you breathe. Bug sprays and other chemical sprays can harm the liver.

- Watch what you get on your skin. Many sprays and chemicals can be absorbed through the skin.

- Take precautions against hepatitis C. Use protection with intimate contact. Hepatitis C can be spread through blood and body fluids, tattoos, body piercing, or drug injection.

- The hepatitis B virus also lives in saliva and can be transmitted easily. Untreated hepatitis Band C viruses are the most common reason for liver transplants.

- Since everything you eat must be processed by the liver, eat a well-balanced diet. Increase your consumption of fruits, vegetables, and whole-grains and other high-fiber foods.

- Avoid obesity, which can increase gallbladder and liver disorders.

NEW STUDIES SHOW

ASPIRIN HELPS TO PREVENT WOMEN'S FIRST STROKE

Physicians have long known that taking aspirin helps to prevent a second stroke. But most studies were done predominantly on men. Women metabolize aspirin differently.

A new 10-year study of 40,000 women shows that, for them, aspirin statistically prevented many first strokes. Those taking a placebo suffered 17 percent more TIAs (transient ischemic attacks), which are warning sign of an impending stroke, and they suffered 22 percent more strokes.

Study authors reporting in The New England Journal of Medicine say the finding is significant, especially since a greater proportion of women than men have strokes.

Participants in the study took 100 mg of aspirin every other day, alternating with vitamin E.

Unfortunately, the study failed to show that taking aspirin resulted in fewer heart attacks for women.

Study participants filled out an annual questionnaire that enabled researchers to further investigate those who reported a heart attack or stroke and those who died from other causes.

Any man or woman considering aspirin therapy should consult a doctor before beginning. The doctor must consider the risk of GI bleeding. The risk of hemorrhagic stroke in hypertensive men and women is also considered.

Doctors say that you should remember that aspirin is a drug, and that you should not medicate yourself.

approves and recommends their need for a power wheelchair.

Please call 800.823.6220 or visit our web site at www.threewishes2.com for more information on the details of this program.

The Wishes on Wheels program's main purpose and goal is to develop public awareness of the assistance options that exist to allow senior citizens and the permanently disabled to remain independent in their homes without incurring extra expense.

Without this awareness and assistance, the senior and their family may prematurely choose a nursing home or take on expensive in-home care simply because they cannot move safely (or quickly enough) from room to room, to get to the bathroom, the kitchen or answer the phone or doorbell.

We insist that the doctor must confirm any necessary options and assures medical compliance.

TOOTH TIPS

By: Dr. Kevin J DeaKyne DDS, PC

October - Child Safety Month

As a parent one of our greatest fears is that your child might get lost or even worse abducted. Dentistry has developed a way to help safeguard our children. The product is called Tooth prints or Dental I.D. Like fingerprints, Dental imprints are unique to every person, so bite impressions can serve as an accurate method of identification. Tooth prints are a patented arch-shaped thermoplastic wafer. When you child bites into the softened wafer, it records individual tooth characteristics and the relationship of the upper and lower jaw. Also, an unrinsed Tooth print captures saliva, which is a powerful source of scent and possible DNA collection. Tooth prints should be done at ages 3, 7 or 8 and at 12 or 13. It takes only a few minutes, is comfortable and gives you peace of mind. See your dentist for questions.

HAVE A HAPPY SAFE HALLOWEEN!!

SISTERS OF FAITH

The Sisters of Faith of the Warren United Church of Christ met Monday night, September 26, 2005. It was a girls night out with a meal at East of Chicago in Warren. Hostess for the evening were: Eileen Dye and Opal Brubaker.

After a delicious meal, the girls returned to the church for their business meeting presided over by President, Eileen Dye.

Eileen reminded everyone that there was a North-East Association meeting October 11, 2005. If you are planning to attend please let her know. Jo Spade is planning to drive.

October 15, 2005 is the Bazaar..Please plan to help.

Also, October 30, 2005 is Home Coming. The Deacons are in charge of the event.

Unit Chairmen passed out the new program booklets. Eileen went over the books with us pointing out many new events for the year.

The North-Eastern Association's Book List for 2005-2006 was passed out. We are hoping for a lot of readers this year.

The Carpet committee for the church lounge gave a report on their findings. They had various samples for the group to look at and prices. Janet Klefeker and Melissa Freck reported that the cost would be between \$2000.00 and \$3,000.00 to complete the job. The kitchenette could be done in carpet or linoleum. If we choose linoleum then a new sub flooring would have to be put down first. It was decided to delay the project until we have enough money to complete the job. We have about \$1600.00 in the treasury.

Opal Brubaker gave devotions on "Our thought for ourselves".

Eileen opened the evenings program with prayer. She gave us a few readings from the book "Messy Spirituality".

Bingo was played with the

prizes going to Adam and Melissa Jones as wedding shower gifts to them.

Members present for the enjoyable evening were: Nancy Smyth, Peggy Wilson, Roselyn Poulson, Suellen Jones, Suzette Gephart, Melissa Freck, Claudia Boxell, Janet Klefeker, Joe Spade, Rosemary Zeller, Georgia Poulson, Marjorie Lieurance, Janet Sneed, Ellen Laymon and the committee, Eileen Dye and Opal Brubaker.

AT YOUR REQUEST

Bluffton Regional Medical Center recently underwent major renovations in the food preparation area to prepare for a new food service program for patients. The At Your Request – Room Service Dining™ customized program provides patients with the food they want at the time they want it.

Patients are given the option to select all meals for the day at one time, or they may call just prior to the time they would like to eat to place their order with a trained dietary order specialist. Menus are available bedside to assist in meal selection.

The dietary order specialist utilizes a computer with the patient's diet instructions already included so patients can rest assured that all food choices are made in accordance with their physician's instructions.

"The new kitchen equipment is set up for 'short order' style cooking so that each meal is prepared fresh to order," said Sue Jewell, Director of Food and Nutrition. "The meal is delivered within 45 minutes right to the patient's room, just like room service at a five-star hotel."

An outside phone line is also available to patients' family members who would like to assist their loved ones with food ordering.

EUCHRE CLUB

The Jackson Township Euchre Club met at the home of Jane Lieurance. Sharron Roush won High, Mary Ann Monce won Low and Phyllis Dickey had the most Lones. Others enjoying the evening were Rosemary Helm, Jo Banter, Carolyn Carroll, Mary Jo Zoda, Marjorie Michaud, Sharon Gebhart, Florence Taylor and Joan Huffman. Next month we will meet at the home of Marjorie Michaud.

BBB HOT TOPICS

Hot Topics from the Better Business Bureau for the month of October include:

1. The Bankruptcy Abuse Prevention and Consumer Protec-

tion Act of 2005 goes into effect October 17, 2005. It will now be more difficult for consumers to file bankruptcy. Under this new law, all individuals who file bankruptcy on or after 10-17-05 must undergo credit counseling six months before they file bankruptcy and must complete a financial management instructional course after they file bankruptcy. The office of the U.S. Trustee must approve credit counseling agencies and providers of financial management instruction.

2. Hurricanes Katrina and Rita— Economic losses are expected to top \$100 billion, with private insurance estimated to cover less than 25 percent. It's clear that government and private donations are hugely important. The desire to help others is one of the great characteristics of the American people; but unfortunately, every time there is a disaster, con artists try to swindle consumers out of their money. Some tips – DON'T respond to unsolicited emails or phone calls requesting donations. DON'T give to people collecting door-to-door. DON'T donate to organizations with which you are unfamiliar. And DO contact the BBB to check any charity asking for donations. Go to www.give.org.

3. Indiana State Police Alliance is soliciting for donations, stating the money will go towards public awareness, youth programs and funeral assis-

tance. Consumers have told the BBB that when solicited they were told that the donation is tax deductible; however, the printed material states that contributions are not tax deductible. According to their 2004 tax return, the professional fundraiser took 79%. The BBB standard states that no more than 35% of related contributions be spent on fundraising.

4. Indiana Restoration Program is sending a mailer to Hoosiers, which looks like it's coming from a government agency promoting "grants" for home repairs. The mailer only gives a PO Box in Chicago. Dale Ellis a/k/a Dayton Vickers-Ellis, owner, reached an agreement with the Illinois Attorney General's Office not to do business in Illinois. It appears that Ellis targets the elderly with high home equity. Beware of this guy. He appears to be using the same tactics against Indiana residents—collecting the money and not doing the work. Thanks to Indiana Legal Services for this tip.

5. Perfect Ten Models, an Indianapolis company, hires models to do contract work, promoting products such as make-up or liquor at restaurants. Models are complaining that they have done the work, but have not been paid. The company is not responding to BBB complaints.

6. NationalWay Healthcare Association is soliciting by fax in Indiana. Shame on them. In March 2004, the Federal Communications Commission issued an official citation against this

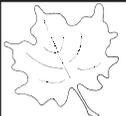

company for sending unsolicited faxes. They sell an \$89.95 monthly membership for health care discounts. This is not insurance.

7. When Gas Prices are high, the number of "gas-saving" product scams increase. The Environmental Protection Agency has evaluated or tested more than 100 alleged "gas-saving" devices and has not found any product that significantly improves gas mileage, and may damage the car's engine. Some of these products include Air Bleed Devices, Vapor Bleed Devices, Liquid Injection, Fuel Line Devices, Mixture Enhancers, Internal Engine Modifications and more.

8. Sky Flex Systems, an Indianapolis company, sells shoes on line. Consumers are complaining that they have not received the ordered shoes, and the company is not returning phone calls or emails.

9. Nationwide Mortgage Protection is sending flyers to Hoosiers regarding a bi-weekly mortgage program. 141 complaints have been filed against this Ohio company. They also entered into an Assurance of Voluntary Compliance with the Ohio Attorney General's Office.

10. Warrior Custom Golf contacts consumers to offer a 45-day free golf club test program to test top-notch custom golf clubs. Customers are asked for a credit card number to be used as a security deposit. Customers are told they will be charged only if they decide to keep the clubs. Instead, their cards are charged upon shipment. Over 100 complaints have been filed.
