CLUTTER ATTRACTS CLUTTER

by The FlyLady, Marla Cilley

Is your home more than 15 minutes worth of messy? If you have lots of hot spots then I will answer this question for you; YES! You ask, what is a hot spot? A hot spot is an area, when left unattended will gradually take over. My favorite analogy is of a hot spot in a forest fire, if left alone it will eventually get out of hand and burn up the whole forest. This is what happens in our homes. If left unattended, the hot spot will grow and take over the whole room as well as making the house look awful. When you walk into a room, the hot spot is the first thing you see. Your eyes are locked on it. CLUTTER ATTRACTS CLUTTER. If you put one item on this flat surface it attracts more items. Do you have areas like this that continue to grow if left alone? Does the rest of the family see this as a place to put things when they do not want to put them where they belong? It is our job to NIP this in the bud. Get rid of that pile, find the surface underneath, and stop the Hot Spot from becoming a raging Clutter inferno!

Our hotspots make our home feel and look cluttered. Why is it that we feel the need to fill up every flat surface in our homes? It is because there is an empty place to put something down. We walk in the door with our arms loaded and are desperate to unload; that is when we drop things in the first clear spot we find. It can be a chair, the counter top or even the floor.

Let's look at why we are trying to carry so much in the first place. We don't want to make a second trip to the car. Isn't that funny; we weigh ourselves down because we don't want to waste a few extra steps. I want to change your attitude about trying to carry too much and just make one trip.

We could all use a few more steps in our day. I have to walk up one level to get to our front door. If I come in through the basement, I would have to climb a flight of steps. It only takes a short amount of time to get up to the house and back down to the car. Here is what I do when I get out of my car. I gather up all the trash and my purse or computer and head to the door. Then I go back to anything else that is left in the car.

I do this with groceries too. I take the refrigerated groceries first and put it all away and go back down for another load. Every time I come in the house I put everything away. This keeps me from being overwhelmed. I don't like to see my countertops covered up with bags of groceries. I love coming into our home and seeing clear counters.

When our flat surfaces are covered up with stuff; we get overwhelmed too. If my coffee table is piled high with clutter, I can't write. A messy desk is not an example of a productive mind. It is symptom

The new tanker had arrived and representatives of the Department had brought it for Council to review.

They reported the chicken supper had gone well; and was a sell out.

Officer Spitler presented his report to Council.

Announcements included: Council meetings: June 21, special meeting, Public Hearing, 6:30 p.m.; June 26, 8 a.m.; Utilities/Town Hall closed July 4; Park Department meeting, July 10.

VB COUNCIL

On Wednesday evening, June 14, the Van Buren Town Council met in the Council Room at Town Hall. President Tony Manry called the meeting to order at 7 p.m. and all in attendance repeated the Pledge to the American Flag.

Minutes of the previous meeting were approved as submitted.

During a Public Hearing Council approved Ordinance 2-2006, water and wastewater rates, and Ordinance 3-2006, sewer rates. The rates will increase 7%. It was noted that with the 7% increase, Van Buren rates are about the lowest in the state. The increase was necessary because of increased charges for state mandatory regulations.

New sidewalks are expected to be put in soon at the Park. It was suggested that possibly parking in the area could be changed due to small children playing in the Park.

A citizen noted that smokers are parking in the area of Markle Bank and around adjacent properties. They were also concerned about unmown grass on vacant properties.

When asked what Council would do concerning the cow barn at-tempting to locate close to the town of Van Buren, Council responded that they had sent a letter objecting to the barn being built in the area.

The Garfield project was reported to be progressing.

A citizen in attendance was concerned about traffic on West Chester Street. Small children have been observed darting in and out of traffic, many unattended by adults. Traffic is heavier during games at the ball park. Council said they would check the situation and decide if stop signs would help.

Council approved an update on Tax Abatement for Les Korporal.

It was also noted there are still untagged vehicles in town.

Council also discussed the Budget for 2007.

Officer Pat Collins reported to Council from the Police Department.

Superintendent Jim Webb said May and June bacteria samples had been approved.

There had been problems at the water plant, but they were expected to be repaired soon.

Webb said they need to get quotes for cleaning the water wells and North tower.

Prisoners were to be in town one day to help clean the streets and one person was available for community service.

Mosquito spraying would get underway soon. There were plans to do some street patching.

The next Council meeting will be June 28.

Council decided to hold one meeting in July, scheduled for July 12 at 7 p.m.

TOOTH TIPS

KIDS, SODA POP & TOOTH DECAY

We have become a "Soda Junkie" Society. In 2000 15 billion gallons were sold. That works out to at least one 12-ounce can per day for every man, woman and child.¹ How does the soda give you cavities? Sugar in your soda plus bacteria in your mouth equals acid. Acid attacks your teeth. Each attack last about 20 minutes. Statistics for soda with acidity (lower number is worse) and sugar content:²

Top 7 Acidity (ph) 7 is neutral

1. Pepsi 2.49
2. Coke 2.53
3. Orange Minute Maid 2.80
4. Hawaiian Fruit Punch 2.82
5. Squirt 2.85
6. Diet Pepsi 3.05
7. Diet Coke 3.39

Top 7 Highest Sugar

1. Grape Minute Maid 11.9 tsp
- Orange Slice 11.9 tsp
2. Orange Minute Maid 11.2tsp
3. Mountain Dew 11.0 tsp
4. Barq's Root Beer 10.7 tsp
5. Hawaiian Fruit Punch 10.2tsp
6. Pepsi 9.8 tsp
7. Coke 9.3 tsp

60% of all public and private middle schools and high schools nationwide sell soda pop (Elem. Schools?). This has led to drastic increases in tooth decay in kids (and adults) along with other possible health problems including obesity, caffeine dependence, and weakened bones. We can reduce the chances for tooth decay by drinking soft drinks in moderation. No sipping for extended period of time. Ongoing sipping prolongs sugar and acid attacks on your teeth. Use a straw to keep sugar away from your teeth. Drinking more water to dilute sugar and acid. (It's better for you anyway!) Some other ways to help reduce decay is good brushing and flossing habits with regular checkups and cleanings at your dentist.

helicopter soon after the ambulance arrived at Parkview Huntington.

Following his return home from the hospital, he, his brothers and a cousin were presented with bicycle helmets by Rasmussen and Mosier, courtesy of an EMS helmet giveaway program at ParkviewHuntington.

Brandon is doing well now, said Rachel Shively, the mother of Brandon and two other young sons in Huntington. She remarked that, prior to his accident, she had not given safety helmets much consideration.

"I didn't think anything was ever going to happen to him," she said.

Since Brandon's accident, however, her attitude has changed, especially since her children received the helmets.

"They wear them now. I make them. Now they don't even ride their scooters without the helmets," she said. "Accidents can happen at any time."

Rasmussen and Mosier emphasized that it's crucial to wear bicycle helmets at all times, but especially during the summer months, when a greater number of children take to the streets with their bicycles.

Rasmussen, who has two young children of her own, practices what she preaches. "I don't want to have to do for them what I have to do at work. My kids know they have to have a helmet on before they get on a bicycle, or the bikes get taken away. That's the rule," she said.

Mosier, himself a father of small children, also enforces the helmet rule in his home. "It's really important for children to wear helmets, especially because many drivers may not pay attention to kids on bicycles or may not see them. I've seen what not wearing a helmet does and what wearing one does," he said.

Parkview Huntington's EMS helmet giveaway program, begun in 2001 by Buddy Brennan, a dispatcher / advanced EMT at ParkviewHuntington, donates 100 to 125 helmets a year to Huntington County children. More than 600 helmets have been donated since the program began.

The Parkview Huntington Hospital Guild is responsible for funding the program, and has contributed \$800 a year for the purchase of the bicycle helmets. The money for purchasing the helmets is allocated from funds raised through the hospital's Gift Shop and guild membership dues.

4-H TALENT

Entry forms are available for the annual 4-H Talent Show which will be held Sunday, July 17th, 5 PM at the annual Wells County 4-H Fair in Bluffton.

The contestants will be divided into three grade classifications: Class A, Grades 1 and 2; Class B, Grades 3 through 6; and Class C, Grades 7 through 12. Grade in school is based on January 1, year of the Fair. Within each class, participants may enter in Vocal, Instrumental, or other. All contestants must be present 4-H members.

Awards will be presented to winners in each category and the Mack Shultz Award will be presented to the top talent winner. The award is presented in memory of Mack Shultz who was a ten year 4-H member who loved music. His Air Force jet disappeared off the coast of Florida in the Bermuda Triangle. Mack was the son of Wells County resident Shirley Shultz of Jackson Township and the late Galen Shultz.

Applications are available from 4-H leaders or the Wells County Office of the Purdue Cooperative Extension Service, 1240 S. 4-H Road, Bluffton, IN 46714, 824-6412. Forms are due July 5th.

LIVESTOCK PAPERS

4-H members are reminded that they need to have the appropriate health papers in order to show their 4-H animal at 4-H and Open Livestock Shows this summer.

Most animals exhibited at livestock shows are required by law to have a health certificate com-

pleted by a veterinarian. Most certificates are good for 90 days.

It is suggested that a parents name also be on the certificate of inspection so that it can be linked with the young person on the form.

Swine exhibitors with animals from Indiana do NOT need a pseudorabies test. (A blood test is not needed.) A certificate of veterinary inspection is still required however.

Members are encouraged to take care of the health requirements early since many of the veterinarians are busy during the summer months.

This year's Wells County 4-H Fair will be held July 15-20. The Indiana State Fair will be held August 9-20. For more information about animal health requirements, refer to page 27 of the Wells County 4-H Rule Book.

If you have additional questions about the health requirements, contact the Indiana Board of Animal Health, 877-747-3038 or your local veterinarian.

FATHER'S DAY

CELEBRATION

Seven children and 3 special guests attended the Father's Day Celebration at the Van Buren Public Library on Friday June 16th at 10:30am to 12 noon. Each child signed in and received a picture to color for their father or their special friend. We had 3 special friends attend. Ruthie Wass had brought her special friend Karl Harte and Savannah Hancock brought her mother Truby and her little brother William. We were pleased these three guests were able to take the time to attend.

Karen read a welcome poem from the holiday book "Father's Day" by Bee Nelson. She also read the book "A Perfect Father's Day" by Eve Bunting. This book has a really cute story. These books can be found in the Children's Department of the library.

The children made cards for their fathers. They had fun as they made the puppy dog head out of construction paper, wrote a short note inside and put wiggle eyes on the face.

We played games of ring toss and bean bag toss. We also did search-a-words of family names and different kinds of automobiles. The children could take the search-a-words home and do them with their dad if they wanted.

Refreshments were brownies made by Ruthie Wass and home made cupcakes they could decorate. The library staff wants to thank Ruthie for the really delicious brownies.

Those attending were Ruthie Wass with special guest Karl Harte, Autumn Harman, Kayla Handshoe, Zach Handshoe, Caitlin Imhoff and Savannah Hancock with special guests Trudy and William Hancock.

Next story time will be Friday June 23rd from 10:30am-12:00.

The library will have a special guest Mrs. Jody Heaston here to talk about Wild Birds. Hope to see you.

HAVE A SELL-A-BUNCH YARD SALE

A bright, sunny day for your yard sale is probably up to Mother Nature to provide. After that, however, the success of the sale is up to you. Here are a few things you can do.

* Have music. Marketing consultants say familiar, upbeat background music encourages buying.

* Take a tip from home furnishing retailers. Create a trail for buyers. Have them pass the lamps and low-priced objects to encourage impulse buying before they come to the furniture. Arrange your tables in a one-way corridor, or place big draws like the furniture near the road.

* Put clothes and electronics at the rear so visitors have to pass items in the middle.

* Put the dishes on a card table with napkins, flowers.

* Draw attention to small wares by arranging them on tables draped in contrasting-color cloths.

* Every item must carry a price. Have enough change.

HOW TO IMPROVE VACATION PHOTOS

Whether you are using a \$10 disposable camera or a \$2,000 digital single-lens-reflex camera, these tips will help you improve your photos.

Follow the National Geographic rule. Photojournalism experts at San Francisco State University say 90 percent of their photo-

graphs are taken 15 minutes after sunrise and 15 minutes before sunset. The light is gorgeous and actually lasts several hours in the morning and late afternoon.

Avoid cliché pictures of sunsets, buildings, and scenery. You will enjoy the photos much more if there is a member of your party in the picture.

Get closer to the subject, then closer yet. Avoid photographing with the sunlight over your shoulder.

Get candid. Take pictures of people doing something rather than posing for the camera.

BIG DECISION? SLEEP ON IT

Scientists at the University of Amsterdam find that thinking deeply about a complex problem can produce poor results. When presented with too much information, they say, people may focus on the wrong things.

The researchers found that when decisions involve only a few factors, thinking them through produces good results. For complex decisions, however, they found that delegating thinking to the unconscious produced better results. You see your way more clearly in the morning.

YOUR POTENTIAL LIFE SPAN

For \$5, you can use the "Living to 100 Health Span Calculator" at www.livingto100.com. It's based on information learned about centenarians.

Genes are a starting point (how long your parents and grandparents lived), but your behavior and attitudes can either add many years to your life or subtract many years.

You can also try the free calculator at moneycentral.msn.com.

THE BEST NUTRITIONAL BARGAINS

A study of 637 foods to determine the nutrient-to-price ratio shows that produce is on top of the list for providing essential nutrients at a reasonable price. Among the best-scoring fruits and vegetables were oranges, bananas, carrots, cabbage, zucchini, celery, onions, canned mixed vegetables, and fruit juices. Lean meat and dairy products were not far behind.

Below-average scores went to grains, meats in general, and composite dishes such as pizza or spaghetti and meatballs. The worst-scoring values in nutrients for the money were desserts and sweets. The study was reported by Tufts University.

NATURAL TOOTH WHITENER

To whiten teeth faster and cheaper, crush one strawberry (has malic acid) to a pulp, mix with 1/2 teaspoon baking powder, spread on teeth and leave for 5 minutes, then brush with toothpaste.

TOO MUCH STUFF IN BANK BOXES?

The Federal Deposit Insurance Corporation (FDIC) says people are putting too much into their 2-inch by 5-inch safe-deposit boxes. Banks now have long waiting lists for supersized boxes.

The FDIC recommends that you use your metal drawer for important documents such as birth certificates, insurance policies, car titles, and family history records, as well as a list of your account numbers.

Don't include original documents that you or others could need in an emergency when the bank is closed, such as your passport or your will.

If you store valuables like jewelry and coins, remember that the bank doesn't insure the contents of safe-deposit boxes. Hundreds of such boxes were flooded by Katrina.

of a cluttered mind. We have to stop and clear off the hotspot to get the clutter out of our minds so we can think.

Our poor babies deal with this problem too. They have so much stuff in their bedrooms that they don't know what to play with. Get rid of the clutter and find peace and help them to enjoy their rooms. With less stuff they will be able to better concentrate.

With fewer things we will be able to better focus on what we need to do. Get rid of your clutter and find peace in your home!

SALADS MADE EASY

by the Dinner Diva, Leanne Ely Now is the time for all good cooks to take FULL advantage of amazing produce! You know how good for you all those wonderful, phytochemically, nutritionally rich veggies are for your health. Well, most everything is at its peak right now.

If you're a little intimidated by such a big assortment, let's start with the easy button. You don't need to know anything when you press the easy button—you just know it's going to be easy! The easy button in my book is the already bagged, ready to go stuff sitting in the refrigerated section of the produce department, just waiting to be grabbed and taken home.

All that is required is from you is to obtain the bag (eyeball it first to make sure it looks good, then check for expiration dates), pay your money (yeah, this stuff isn't the cheapest way to go, but think of it this way—potato chips cost \$2.49 a pound and provide nothing nutritionally) and go home and use it. There are usually recipes on the bag and I've got some ideas here, too, on how to use these convenient veggies.

With this stuff, it's easy to go recipe-less and build beautiful, nutrient-rich salads to suit just about everyone's palate. Just grab a bag and follow these great tips for quick and easy meals and side dishes.

*Make a slaw. You can go traditional and empty a bag of ready-to-go slaw into your salad bowl, add 1/2 cup of low-fat mayo, a teaspoon of honey, a splash of cider vinegar and you're ready to roll.

*Make ethnic slaw. For fun, use a bag of broccoli slaw instead and add 1/2 cup low-fat mayo, a splash of rice wine vinegar, a shot of sesame oil and garnish with a little chopped cilantro and honey roasted peanuts and you're good to go.

*Chips and dip. Those great, big

carrot chips are a whole lot better for you than the potato kind! Open up a bag and serve with your favorite low-fat dip instead and you'll save yourself a whole bag of calories!

*Stir it up. For a quick and easy vegetarian stir fry meal, chop some green onions and press a little garlic and put it in a wok, already heated with a little oil. Add your bag of stir fry, a dash of soy sauce, some ginger and bean sprouts and you have a good meal. Put in on brown rice and you have a great meal!

*Tofu tagalong. There's tofu in the produce department! Maybe you'd like a few chunks of tofu in your stir fry? Go ahead—don't be timid. Tofu can be fun.

*Carrot slaw. Much better than the kind your school cafeteria served. Mix a bag of shredded carrots with 1/2 cup low-fat mayo, a handful of raisins and a generous pinch of chopped walnuts. Delicious!

*My favorite salad. In a large bowl, toss together from different bags, whatever you have on hand (and I use a handful of the basic greens per person to make mine): field greens, baby spinach, shredded broccoli, shredded cabbages, etc. (smaller portions of the shredded stuff). Add thinly sliced green onion, a sprinkling of pine nuts, a generous portion of sun-dried tomato feta cheese crumbles, and toss together with a simple dressing of one pressed garlic clove, two parts rice wine vinegar to one part olive oil. Toss well and let sit for just a minute for flavor to meld (but not too long otherwise your salad will be soggy).

And there you go—easy salads using your easy button. Enjoy!
