MARKET REPORT

The farmers market is coming along nicely each week we are adding new things. Our newest vendor is Mrs. Stutzman from Geneva who brings wonderful good Amish bread. Her wheat bread she grinds the wheat fresh and also has white bread and cookies and boiled cider apple butter. She will not be at the market every week as she and her husband are the people who had the homemade ice cream at the tractor show during the festival, but we will welcome her when she can be there.

We were glad to see Mr. Rippy back with green beans, cabbage and potatoes. Wayne Herring was there with refinished furniture, sorry it is hard to put his wares into a recipe but was a nice addition. Another regular was the Plum Tree folks with a great assortment of vegetables, canned products some craft items.

Be sure to check out the girls who bring salsa, cheese spread all freshly made and give out samples. They also have delicious granola and cookies.

Other regulars are Smyths with bison meat jerky. Jane Hite has a variety of plants, Rabbs have the wonderful angus beef, Ruth Herring is there with freshmade noodles, jams, jellies and what ever she might bring from her "Uptown Garden", and then we have the R Bakery with the delicious pies, cakes, sour dough bread, and other pastries. So come out to the new location at the old BMV site, our thanks to David Daugherty for the use of the lot, and enjoy the atmosphere of friends and neighbors visiting and going home with a bag of good fresh products.

We are there every Saturday from 8 a.m. till noon.

FESTIVAL THANKS

This small town deserves a BIG thank-you! What a fantastic festival, the beautiful weather created the perfect weekend for our town to host its biggest celebration of the year. Thousands of our friends and neighbors visited Warren to be a part of numerous events.

Now that all the fun is over and the plans begin for next year, one very important thing needs to be done. That is trying somehow to thank all the community minded people and businesses that helped bring this festival, together.

First of all to the Salamonie Summer Festival Committee who worked all year long to plan and organize, what an unbelievable bunch of people to work with! Thanks for giving of your time and talent to bring this town the great celebration it deserves! Any one who attended events during the festival saw many of these people always working hard to make sure everything was running smooth. I won't list names because none of these people ever expected or wanted to be recognized, they give unselfishly of their time and talent because they are the kind of people who make Warren so great!

Without doubt we celebrate all of the big-hearted people of Warren! We appreciate the downtown residents who were gracious in sharing their sidewalks and streets and warm smiles through out all of the hustle and bustle of the festival. We know what an inconvenience it can be but just as true Warrenites you gave unselfishly of your personal space to welcome people to Warren in style!

1ST ANNUAL DUCK RACE

On Saturday, August 19, 2006, from 1:00 p.m. to 3:00 p.m., Family Centered Services, Inc. (FCS) will hold its first annual Duck Race on the Wabash. Employees, board members and agency volunteers have been busy planning this event for several months. The grand prize is a cash gift of \$1000 with twenty-six more opportunities to win gift packages or gift certificates generously donated by area businesses and retailers. The event is slated as a family affair with games for children, snacks, and music provided by members of the Northeast Indiana Banjo Society with the festivities at Kehoe Park.

The kickoff day for sponsoring ducks (buying the raffle tickets) was Saturday, July 1. Individual tickets are \$5 each with "Quack Sacks" (5 for \$20 and a stuffed duck) and "Skipper's Decks" (12 for \$50 plus a T-shirt).

Additional T-shirts may be purchased for \$7 each.

In addition, staff, board members and volunteers will be selling the raffle tickets throughout July and the first two weeks in August. They may also be purchased directly at the FCS office located at 302 Lake Street. For any additional information, please call the office at 358-1859.

FCS is deeply grateful to its 42 corporate sponsors who are listed on the brochures accompanying each raffle ticket sold.

The corporate sponsors who donated \$500 to \$1500 will be listed on the back of the T-shirts. Some sponsorships also provided free raffle tickets to client families to allow many families and children to participate in the race with a chance to win a prize. Family names will be randomly

selected to receive the sponsored ducks.

The proceeds from the sale of the ducks will assist FCS, a private nonprofit agency, in funding the twelve programs it administers to provide compassionate, respectful and innovative services that strengthen and support families and their communities. Established in 1990, FCS has offices in Huntington and Bluffton and also provides services in Adams and Miami Counties. Annually, over 1000 families are served through the parenting, mentoring and youth serving programs.

The parenting programs are: Healthy Families-helping expectant and new parents get their children off to a healthy start with information education, and referrals; Parenting From the Heart-a six-week course offered in collaboration with the four Wells County elementary schools focusing on ways to communicate that build confident and responsible children; Boot Camp for New Dads-a three-hour class for new dads to learn about fatherhood, parenting issues, balancing work and family time, bonding, and postpartum depression discussions; Families in Transition-classes for divorcing parents to help understand the importance of working together to minimize the impact of divorce on their children; and Family Preservation-providing home-based counseling services and supervised visitation services for referred families who are at-risk for child abuse or neglect.

The mentoring programs are: Mentor Mom-matching young, at-risk mothers with experienced adult mentors who are trained to provide encouragement and support for dealing with the challenges of parenting young children; and Faith Based Mentoring-providing supportive relationships with partner families who will be empowered to learn life skills and achieve self-sufficiency.

The youth serving programs are: Host Homes-providing temporary

alternatives to placement, giving shelter to children who need a "cooling off period" away from their family due to crisis situations; Safe Place-businesses around the county are trained to offer shelter for a runaway or homeless youth until someone can be called to assist; Teen Court-holding juveniles accountable for their actions, providing volunteer opportunities for youth which promotes respect for the rule of law; Youth as Resources-inspiring lifelong habits of philanthropy in young people by providing opportunities to make grants for youth-led service projects; and The Closet-providing free clothing and other necessities for infants and preschool aged children.

While the majority of funding is provided through state and federal grants, the assistance received from the United Ways of Huntington and Wells Counties, as well as the grants received

from corporate and community foundations, FCS also relies on gifts from individuals and businesses. With grant pools shrinking due to greater demands from all social service agencies, fundraising has become a necessary function for FCS to support the expenses of administering twelve programs and providing operating expenses for a current staff of 29, of which 19 are full-time employees. The agency has been blessed with the assistance from 175 volunteers serving in various capacities throughout its programs and activities.

For more information on FCS, please visit the agency's website at

PREVENT HEAT RELATED ILLNESS

Hot summer months bring a greater risk of heat stroke, heat exhaustion, and other heat related illnesses. With temperatures around Indiana predicted to reach the 90s in the coming weeks, state health officials are reminding Hoosiers to avoid prolonged heat exposure.

"People naturally sweat to cool themselves off," said State Health Commissioner Judith A. Monroe, M.D. "However, exposure to the kind of heat we're expecting, sweating isn't enough to provide relief. In this kind of heat, the body's temperature rises rapidly, which could damage the brain and other vital organs."

People who spend too much time in a hot environment could suffer heat stroke, also known as sunstroke or hyperthermia, a life-threatening situation in which the body is unable to regulate its temperature and cannot cool itself down; heat exhaustion, in which blood flow increases to the skin, which causes it to decrease to the vital organs; and heat cramps, which are muscular pains in the abdomen, legs, and arms, due to strenuous activity.

"First and foremost, stay indoors as much as possible. Avoid strenuous activity, especially in the later part of the day. Finally, it's important to stay hydrated. Drink plenty of water, regularly and often, even if you don't feel thirsty," said Dr. Monroe.

If a heat wave is predicted or occurring follow these tips: Slow down. Avoid strenuous activity. If you must do strenuous activity, do it during the coolest part of the day, which is usually in the early morning.

Stay indoors as much as possible.

If air conditioning is not available, stay on the lowest floor, out of the sun. Try to go to a public building with air conditioning each day for several hours.

Wear lightweight, light-colored clothing. Light colors will reflect away some of the sun's heat.

Avoid drinks with alcohol or caffeine. They can make you feel good briefly, but make the heat's effect on your body worse. This is especially true about beer, which dehydrates the body. Water is the safest liquid to drink during heat emergencies.

Eat small meals and eat more often. Avoid foods that are high in protein, which increase metabolic heat.

Avoid using salt tablets unless directed to do so by a physician.

The use of fans may increase comfort at temperatures less than 90° F, but are not protective against heatstroke when temperatures reach greater than 90° F and humidity exceeds 35%. Although fans do not cool the air, they do help sweat evaporate, which cools your body.

YOUR PHARMACY BENEFIT

If you and your loved ones are like many Americans, you probably take at least one prescription drug. Given the costs of these drugs and our need for more medicines as we get older, it's important that you're making the best use of the benefits offered by your health insurance plan.

Learn what you can do with the free Pharmacy Benefit package from the U.S. Food and Drug Administration, the National Pharmaceutical Council, and the Federal Citizen Information Center. It features helpful hints on how to effectively use your benefits to pay for the medicines you need to stay healthy.

Whether your health insurance is through an employer or the new Medicare prescription drug coverage, it most likely requires a year-long enrollment. So if you're having problems getting your prescriptions filled or your plan won't cover your medications, it's important you know what to do regarding that plan. First, talk with your doctor to find out if a different medicine or a generic version will work for you.

Find out more about generic drugs with this informative package, including how they work like brand-name drugs in dosage, safety, and effectiveness.

However, if your doctor feels a specific medication is necessary for you, you have the right to appeal to your insurance provider. Get useful tips on how to file an appeal in the Pharmacy Benefit package. There's even a sample appeal letter that you can use as a guide.

Getting the most from your plan not only involves troubleshooting problems that may arise, but also managing the benefits and risks of your medicines. Before starting a new prescription, ask your health care professional when, how, and how long to use it; what to do if you miss a dose; and what side effects and interactions to watch out for.

It's also a good idea to keep an up-to-date list of all the medicines that you're taking and share it with your doctor and pharmacist. Use the handy chart in the free Pharmacy Benefit package to help you record this information.

Be an informed consumer by ordering the free Pharmacy Benefit package today. There are three easy ways to get your free publications:

Send your name and address to Pharmacy Benefit, Pueblo, Colorado 81009.

They watched a video called "America Rocks" which explained how America got started. Then the children took part in an activity called "The Great American Melting Pot." Each child received a slip of paper with a country on it. They used the slips of paper to make the American flag. The goal was for the children to realize that America is made up of many different cultures.

DRINK UP

by The FlyLady, Marla Cilley
Have you lost your get up and go and you don't know where it got up and went? Many of us have this problem. The answer to this problem may surprise you!!!

You are dehydrated! Yes you heard me. You are not drinking enough water; I did not say liquids, I said water.

You know how much water you need to drink. 8-8 ounce glasses, is the recommended amount for normal height and weight. I have some tips for reminding yourself to drink your water. Look at the 8 ounce measuring cup; that is really small, when you think about this. One lady I know uses a nice tea cup for her water. It is small and makes her feel good when she uses it. Here are some more ways to remind yourself to drink your water.

1. Put up Post-It notes to remind you; Bright red or neon. Any color to get your attention.

2. Get 4-16 oz bottles of water and set them out each morning. Refill each night.

3. Drink water with all your meals.

4. If you have a hard time drinking water, use a pretty glass or favorite cup. You can also drink out of a straw. Try it. Water goes down much faster when you suck it up.

5. Keep a bottle of water in your car, by your chair, and by your bed.

6. When you think you are hungry, drink a glass of water first.

7. If you can't keep up with the number of ounces you are drinking, keep a pile of pennies for every 8 oz glasses. Move them from one pile to the next, each time you drink a glass of water. I used polished rocks from my candle rock garden on my entrance table. Each time I fill up my water bottle I move a rock.

8. Take a pretty bottle that can hold 64 ounces. I used to have a

big round green wine bottle that I filled with 12 oz glasses. Each time I poured the water into the bottle, I made a mark on the side to calibrate it. That way, any time during the day, I could count how many ounces I had drunk for the day.

9. My favorite glass was a 12 ounce stemmed water glass. I felt special drinking water from this glass.

10. Drink water at the top of every hour. Eventually you will not have to go potty as often. One other thing: Every time you go to the bathroom, then drink some more water.

11. If you have the flu or respiratory infection. The water will help to break up the phlegm and wash the impurities out of your system. You will cough up this stuff. It is my best medicine for a cold, flu, or stomach virus.

12. If you can't remember to drink your water. Send yourself 8 emails and leave them in your inbox to remind you! Delete as you drink your water!

Please keep in mind that too much of a good thing is bad. Do not drink more than 12 ounces in a 30 minute period of time. There is such a thing as water intoxication. Your kidneys can shut down.

Baby steps and incorporate water drinking into your routines. This will be good for you and it may just give you the energy to get your routines done.

One other benefit from drinking water, your skin will not be as dry or wrinkled. Water is the best moisturizer you can buy!

This is one simple way to love yourself. Take the time to drink your water. If you won't take care of yourself, who will? FLYing is all about Finally Loving Yourself! Are you ready to FLY?

Special thanks go out to the generosity of Dogwood Glen Golf Course for the use of their golf carts and Larry Kieffer for the use of his Gator, what a huge help! For the use of new trucks during the parade, hats off to Crain Ford. So many events would not take place without the use of the Knight Bergman Center grounds, what a great, asset to our community. Next time you see a member of the Salamonie Active Men please give them a pat on the back for their work setting up stages and seating!

If not for the continued support of the Warren Town Council this festival would not take place. Its speaks highly of our town that we have a council that understands how important it is to always show "small town spirit". Thanks to our town employees for all their work behind the scenes and for our local officers for their help with all the added traffic during this weekend.

The biggest thank you goes out to the greatest volunteer Fire Department any town could ask for. There is so much work that has to be done to pull off a festival of this size and those guys put in endless hours of work. It didn't matter what the job, what time or how tired they were it always got done and immediately they would ask if we needed anything else! Thanks to each one of you, it was deeply appreciated!

All of this time and talent given is completed by the generous monetary gifts from our local businesses. Next time you are ready to make a purchase of any kind please remember those businesses who support and give back to your community.

What a giving community- Warren is simply the best!

Sincerely,

Vickie Grim
